EDUCATION

Stevens Institute of Technology, School of Engineering and Science

Bachelor of Science in Computer Science | GPA: 3.911/4.0

Expected: May 2029

Hoboken, NJ

Concentration: AI & Machine Learning

Relevant Courses: COOP, Discrete Structures, Data Structures, Probability & Statistics, Linear Algebra, Frontiers of Technology: A.I. and Machine Learning

Bergen Community College

Associate of General Science

May 2025

Paramus, NJ

SKILLS

Programming: Python, Java, C++, JavaScript

Software & Tools: Git, GitHub, VS Code Microsoft Office Suite (Excel, Word, PowerPoint, Visio)

Technical/Project Concepts: Object-Oriented Programming, Data Structures, Algorithms, Debugging, Agile

EXPERIENCE

MOCORE Lab – Movement Control Rehabilitation Lab

October 2025 – Present

Undergraduate Research Assistant; VR Motor Control & Rehabilitation

Hoboken, NJ

- Provide hands-on support for PhD-led human-subject experiments using a VR-based upper-limb brace platform in motor control and rehabilitation research
- Set up and calibrate experimental equipment, support data collection processes, and help maintain smooth and organized research sessions
- Build exposure to biomechanics, virtual reality, and AI applications in rehabilitation through active involvement in experimental workflows and research discussions.

Stevens Institute of Technology

September 2025 – Present

Music & Technology Lab Monitor

Hoboken, NJ

- Oversee daily lab operations for 100+ students per week, manage scheduling across 20+ workstations, and minimize equipment downtime through proactive troubleshooting
- Maintain 100% equipment accountability by coordinating lab usage logistics and monitoring shared technology resources
- Streamline lab workflow by resolving routine technical issues and helping ensure consistent workstation availability for folks

Buffalo Wild Wings

September 2024 – January 2025

Operations Associate

Jersey City, NJ

- Delivered service to 200+ customers per shift in a fast-paced, high-volume environment while maintaining accuracy and efficiency under pressure
- Collaborated with 10–15 person team at peak hours to support smooth operations, ensure compliance with sanitation standards

ACADEMIC PROJECTS

J.P. Morgan Chase & Co. Software Engineering Program

October 2025 – November 2025

- Stood up a Java 17/Spring Boot service with pinned Maven deps, multi-env profiles, and a clean layered architecture
- Implemented RESTful transaction endpoints with request validation and centralized error handling; added JUnit 5/MockMvc tests for API/service layers to validate edge cases, response contracts, and reliable request/response behavior
- Integrated Apache Kafka producers/consumers and H2 + JPA/Hibernate persistence; modeled entities/repositories, enforced BigDecimal currency math, and verified end-to-end reliability with repeatable builds

NASA 2025 App Development Program | Data Lead

September 2024 – November 2024

- Structured, cleaned, and validated satellite communication data from NASA APIs/JSON sources, enabling accurate simulation inputs, reducing inconsistencies, and improving mission analysis workflow reliability across the team
- Built JavaScript functions for link budget calculations, automating key communication metrics (e.g., signal strength, path loss, and margin estimates) to streamline simulation analysis and improve prediction accuracy across mission scenarios
- Developed an HTML-based interface to visualize antenna configurations, allowing teammates and judges to identify optimal setups and improve decision-making quickly

LEADERSHIP EXPERIENCE

Software Engineering Club, Product Operations Manager

October 2025 – Present

- Coordinate cross-functional collaboration between front-end, back-end, and product teams to support app development and streamline execution
- Lead feature brainstorming discussions, consolidate team input, and help define product direction for efficient FE/BE handoff
- Maintain agendas, action-item trackers, and team communication channels to improve organization, accountability, and project momentum

Stevens Honor Board, Faculty-Relations

October 2025 – Present

- Serve on a selective board that upholds the Stevens Honor System and advances campus-wide academic integrity
- Act as primary faculty liaison for case intake, coordinating outreach, documentation, and scheduling confidential meetings

Alpha Kappa Psi (Professional Business Fraternity), Bridge to Brotherhood Committee

October 2025 – Present

- Coordinate info sessions/“Meet the Brothers” and assist EM onboarding through Bridge to Brotherhood (EMP)
- Oversee planning logistics and outreach for Bridge to Brotherhood events, strengthening the onboarding pipeline.
