EDUCATION

Stevens Institute of Technology – Hoboken, NJ

Bachelor of Science in Computer Science (Expected May 2027)

- Presidential Scholar (required GPA above 3.2)
- Relevant Coursework: Data Structures and Algorithms, Systems Programming, Machine Learning Fundamentals, Computer Architecture and Organization, Software Development Process, Database Management Systems, Theory of Computation, UX Design and Programming, Mobile Systems and Applications, Interactive Computer Graphics, Operating Systems, Wireless Systems

Bergen County Academies – Hackensack, NJ

Academy for Engineering & Design Technology (June 2021)

- GPA: 3.7-3.9
- SAT: 1520 (1550 superscored)
- Program advisor for incoming engineering academy freshmen

TECHNICAL SKILLS

- **Languages:** Python, Java, C, C++, JavaScript, TypeScript, OCaml, R
- **Web & Tools:** HTML5, CSS3, MySQL, Pandas, Git, Excel, React
- **Concepts:** Object-Oriented Programming, Algorithms, Machine Learning, Database Design, Web Development, Software Engineering, Data and Statistics

SELECTED PROJECTS

Journalism Causal Lens – *TypeScript, JavaScript, HTML/CSS, React (Flow), Next.js, Zod*

- Built a Next.js / TypeScript journalism research prototype that uses LLMs to extract causal trees from news articles (identifying events, contributing factors, consequences, reporting gaps).
- Designed causal framing analysis pipeline that distinguishes foregrounded vs. backgrounded causes, alternative explanations, blind spots, and article-level support for causal claims.

- Developed an interactive React Flow visualization for inspecting causal relationships, evidence status, support scores, rationales, and follow-up reporting questions at the node / edge level.
- Integrated an AI reporting assistant with optional web research, which allows journalists to investigate weak causal links, generate source / interview strategies, surface relevant outside evidence, and review cited web sources.

Spotify Mood Playlist Generator – *Python, Flask, Spotify API, JavaScript*

- Built a web app that generates personalized Spotify playlists based on user mood using sentiment detection from text input.
- Integrated Spotify API for authentication and playlist creation; implemented front-end with responsive design.
- Deployed prototype using Flask backend and version control with Git.

RELEVANT EXPERIENCE

National Science Foundation - Research Fellowship

Hoboken, NJ | Jun 2026 – Aug 2026

- Research fellowship with a focus on journalism and tech / LLMs under the guidance of prof. Jeffrey Nickerson
- Constructed tools that can extract narrative schema from scraped articles and use them to detect structural analogies between articles
- Explored how LLMs can be used to aid journalists and reporters in gathering higher-quality information (less noise, less bias, and more precision in less time)

Dhiyasoft LLC – Development Intern

Wayne, NJ | Dec 2025 – Jan 2026

- Provided graphic design insight and constructed advertisements for the company's LinkedIn page.
- Gathered data of potential leads for individuals / companies based on relevance scores for more efficient sales calls.
- Constructed an AI chatbot for the company's website (dhiyasoft.com) to answer customer questions and provide contact information if shown interest.

Boranet, Inc – Development Intern / Consultant

Englewood Cliffs, NJ | Aug 2022 – May 2023

- Improved client website engagement by conducting A/B testing and heatmap analysis to optimize design and copy.
- Designed and implemented responsive web interfaces using HTML, CSS, and JavaScript.

- Collaborated with small business clients to define functional requirements and enhance online presence.

Stevens Institute of Technology – Residential Advisor, Pre-College Program

Hoboken, NJ | Jun 2024 – Jul 2024

- Supervised and mentored incoming high school students during an intensive pre-college residential program.
- Coordinated daily schedules and addressed student and parent concerns to ensure program success.
- Developed strong communication and leadership skills while fostering a safe, inclusive learning environment.

CERTIFICATIONS & AWARDS

- Harvard Undergraduate Science Olympiad – Grand Prize, Materials Science (2021)
- New Jersey Governor’s STEM Scholar (2022–2023)
- Data Science and Machine Learning – Summer STEM Institute Certification
- JavaScript and Data Structures – freeCodeCamp Certification
- Responsive Web Design – freeCodeCamp Certification
- Hugh O’Brian Youth Leadership Ambassador (2021)

EXTRACURRICULAR & VOLUNTEER

- **Schoolhouse.world:** Volunteer SAT Tutor for peer learning research pilot (Apr–Aug 2022)
- **Bergen County Academies E-Camp:** Orientation Program Counselor (2020–2022)
- **Technical Interests:** 3D computer graphics (Blender), VR/AR game design
