EDUCATION

Stevens Institute of Technology, Schaefer School of Engineering & Science

Expected Graduation: 2029

Candidate for Bachelor of Electrical Engineering

Relevant Coursework: Chemistry, Engineering Design, CAD & SolidWorks Modeling, Circuit Analysis, Programming (Python, C++, Java), Calculus I–III, Physics, and Technical Communication.

PROFESSIONAL EXPERIENCE

Alburtis Pool – Head Lifeguard / Event Coordinator (May 2023 – August 2025)

- Led a team of 8 lifeguards in daily operations, ensuring a safe and efficient environment.
- Monitored water chemistry and quality to maintain safety standards.
- Planned and coordinated pool events, including booking, scheduling, and promotion.
- Performed regular maintenance to ensure optimal conditions for patrons and staff.
- Redesigned and implemented a new security system that drastically reduced security incidents and increased operational productivity.

Macungie Pool – Lifeguard (May 2022 – August 2022)

- Monitored the pool area to ensure safety and compliance with all regulations.
- Administered first aid and emergency response procedures effectively.
- Conducted routine inspections for cleanliness and safety hazards.

LEADERSHIP & PERSONAL DEVELOPMENT

Emmaus Varsity Volleyball – Captain / Player (2021 – 2025)

- Received All-Conference, All-District, and All-State recognition.
- Key contributor to league and district championships and multiple state tournament runs.
- Organized team meetings and film sessions to enhance performance and unity.
- Served as liaison between coaches and players, promoting accountability and communication.
- Mentored younger teammates to develop skills, confidence, and leadership qualities.

Aevidum – Co-Founder / Historian (2022 – 2025)

- Grew the club from 5 to 100+ members in 2 years through events and recruitment.
- Managed photography, documentation, and event/field trip organization.
- Promoted mental health awareness through school activities and educational outreach.
- Established a leadership transition process to ensure continuity post-graduation.

East Penn Wellness Committee – Student Representative (2023 – 2025)

- Collaborated with faculty and district administrators to promote student health and wellness.
- Contributed to policy discussions on nutrition, physical activity, and mental health initiatives.
- Gathered community feedback and data to inform improvements to district wellness programs.

National Honor Society – Member (2023 – 2025)

- Selected for academic excellence, leadership, character, and service.
- Completed 20+ hours of community service annually through school and local projects.
- Maintained high honor roll status in accordance with NHS standards.

PROJECTS

Automated Plant Watering Subsystem (2024 – Present)

- Designed and built an automated system that waters plants based on soil moisture and water-level sensor data.
- Used SolidWorks to model the mechanical housing and layout.
- Integrated photocells, sensors, and a breadboard circuit to control water flow automatically.
- Collaborated with peers to refine code logic and optimize responsiveness and water efficiency.
- Focused on maximizing system durability and longevity to differentiate the design from conventional prototypes.

PROGRAMMING EXPERIENCE

- 4 semesters of Python at the high school level.
- 3 semesters of Java at the college/AP level.
- 2 semesters of C++ at the college level.

ADDITIONAL INFORMATION

- Languages: Fluent in English; 4 years of high school-level German.
- Interests: NCAA Men's Volleyball, swimming, fitness, fishing, kayaking, sports analytics.
