PROJECTS

Code Clone | *Senior Design Project* | Hoboken, NJ

September 2026 - Present

- Collaborated with a team and industry sponsor to design and develop an educational programming game that teaches players practical code refactoring techniques

Roblox | *Collaborative Project* | Hoboken, NJ

September 2025 - Present

- Co-developing multiple Roblox games using Lua, implementing gameplay mechanics, client-server systems, and reusable game architecture.

Fishing Game | *Personal Project* | Quakertown, PA

July 2026 - Present

- Solo-developed a 2D fishing game in Python using Pygame and supporting libraries, designing and implementing custom sprites, animations, gameplay systems, and user interfaces.

WORK EXPERIENCE

MoFlo | *Software Development Intern* | Quakertown, PA

June 2025 – January 2026

- Designed, launched, and currently maintained scalable web scrapers hosted on AWS infrastructure.
- Deployed production-ready software solutions that interface with databases through automated shell scripts.

Wawa | *Customer Service Associate* | Quakertown, PA

Summer 2022 - Present

- Assisted in onboarding and managing new employees while maintaining strong customer engagement and service quality.

EXTRACURRICULAR ACTIVITIES

Sigma Nu Fraternity | Hoboken, NJ

April 2023 - Present

- Assist in organizing brotherhood events as a member of the Chaplain Committee.

Game Development Club | Hoboken, NJ

2023 - 2025

- Participated in multiple Stevens Game Development Club game jams, contributing to the development of two Unity games within two-week timelines.
- Collaborated with a team during the Stevens QuackHacks hackathon to design, develop, and prototype a flash game clone using pygame, delivering a functional playable prototype.

Ice Hockey | Hoboken, NJ & Quakertown, PA

2020 - 2024

- Played for the Quakertown varsity ice hockey team and contributed to rebuilding the program through participation in team-based charity events.
- Competed as a member of the Stevens Institute of Technology club ice hockey team.
